NEWSPAPER REPORTS:

Messrs. Parry & Co. sent us a sample of canned corned beef, put up by McCall & Co., at Tuyu, in this province. We have tested and tasted the same, and found it fully equal in all respects to the celebrated American canned corned beef, of which one house imported in one year 208,000 cans. The quality of the beef, and of tongue, in its cooking and preservation, leaves nothing to be desired, while naturally the price is much lower than the imported article; and, besides, we welcome the enterprise all the more heartily because it is of home production. We shall be pleased when we supply our own preserved meats and fruits, our own lard and butter, in fact, everything we consume, excepting teas and spices.—*The Herald*, April 2, 1881.

We are glad to see that the verdict of our colleagues in reference to Messrs. Parry's Argentine Corned Beef, made by McCall and Co., is the same as our own—incomparable. It speaks volumes for the progress of the country to see Argentines appreciating corned beef, which, a few years ago, was looked on here as quite a plebeian dish. The man who can appreciate corned beef, sliced to the thinness of a wafer, with a dim smear of Colman's mustard on it, must have his stomach, if not his heart, in the right place.—*The Standard*, April 5 1881.

LAS CARNES CONSERVADAS.

Junto con la carta de los Sres. Parry y Ca., que ayer publicamos, recibimos dos tarros conteniendo el uno *corned beef* y lenguas el otro. Probemos de ambos, como tuvimos el gusto de anunciar al publico que lo hariamos, y tuvimos de gusto mayor, si cabe, de encontrar las conservas esquisitas.

Especialmente la carne (*corned beef*) puede ser recomendada como un bocado delicioso para el paladar de un gastronomo.

Pero esto no es mas que nuestra opinion particular, que podriamos espresar diciendo que los Sres. Parry y Ca. conservan muy bien sus carnes.

Fuera de nuestra opinion al respecto, esta la consideracion de que estas conservas preparadas en el Tuyu especialmente para la casa Parry, significan la implantacion entre nosotros de una gran industria nacional, de una importancia tal, que por ser palmaria no necesitamos señalarla; nadie desconoce el desarrollo que ha tomado hoy la industria de conservacion de carnes.

Y si a esto se agrega la clase excelente, la superior calidad de las conservas de que hablamos, tendremos que es proceder con la mayor justicia el tributar un merecido elogio a los Sres Parry y Ca.—*La Nacion*, Abril 3 de 1881.

We have used the corned beef and tongue, and find it as good as the best American canned corned beef, and it is sold at a much lower price. We can fully recommend it to our readers, and we wish the enterprise the success it so well deserves.—*The Herald*, April 8, 1881.

La casa Parry y compañia es la depositaria de las excelentes conservas de carnes hechas en la Republica, y que estan llamadas en cuanto la exportacion comience y sean conocidos en el estranjero una de sus verdaderas fuentes de riqueza.

La casa Parry, la primera en su genero, tiende y ofrece al publico, con condiciones ventajosas, los mas excelentes productos de consumo del pais y de ultramar.—*El Correo Espanol*, Abril 10 de 1881.

Il n'y a rien de plus inconnu a la Plata que les industries qui y prosperent: ainsi hier nous avons entendu parler pour la premiere fois de preparations de "corned beef" (boeuf fumé) fabrique dans la province de B. Ayres par MM. McCall et Cie.

Ces messiers ont installe une usine au Tuyu ou ils fabriquent du "corned beef" en boites absolument semblables comme conditionnement et qualite a ceux que l'on exporte des Etats Unis.

Dans la Republique du Nord on a abattu l'annee dernier 368 mille tetes, pour les employer a la fabrication du "corned beef;" il y a la une mine fort riche a exploiter et nous ne voyons pas quelle raison empeecherait MM. MacCall et Cie. de lutter avec les Nord Americains.—*L'Union Francaise*, 1er. Avril 1881.

"Corned Beef" de Parry.—Asi como el laborioso de Bagley consiguio en muy poco tiempo derrotar por completo el accreditado fabricante de galletitas Palmer, de Reading y cerrar el mercado a los productos de aquel y de otros fabricantes estrangeros, por la superioridad recorda de sus galletitas fabricadas en el pais, asi tambien estamos seguros de que las carnes conservadas de los Sres Parry y Cia preparadas en el Establecimiento del Sr. MacCall, en el Tuyu, acabaran por desterrar de nustros mercados los productos estrangeros del mismo ramo.

Tiene forzosamente la elaboracion de las carnes que dar buenos resultados en nuestro pais, por la abundancia, la superioridad y la baratura de la materia prima.

Asi lo han comprendido los Sres Parry y Ca que acaban de introduoir en el mercado las carnes conservadas del Tuyu, que, en clase y condicion, pueden competir con ventaja con las conservas americanas y las venceran en menos tiempo quizas que el que creen los mismos Sres Parry, a quienes felicitamos muy sinceramente por la excelente calidad e inmejorable preparacion de su 'Corned Beef.'—*El Comercio del Plata*, Abril 9 de 1881.

We have mentioned before the enterprise of Messrs McCall & Co., in putting up corned beef, which is fully equal to any imported, and which is destined to find a wide market. Messrs Parry & Co., when they undertook to put it on the market, were advised to put a label on it which should disguise its origin and make it appear as if imported. With great wisdom they declined this, and boldly put out the fact that Argentines were beginning to prepare for use some of their own abundant resources, and the results have justified the policy, for an adequate supply has been difficult to get, and the merit of the article will keep it going. It is with pleasure that we give prominence to this beginning hoping that a long list of undertakings will follow this excellent lead—*The Herald*, April 14th, 1881.

Your notice of Messrs Parry & Co.'s Argentine Corned Beef, has made our mouths water. I hope that, unlike the immigration to the Argentine Republic, it will not all remain in Buenos Aires. We are, also, men and brothers, although we live north of the 'Arroyo del Medio.'—W. P., of Rosario.—*The Standard* April 14th, 1881.

EL SISTEMA McCOLL Y CA. PARA LA FABRICACION DE 'CORNED BEEF' EN LATAS.

Estos Sres. dueños de una importante fabrica en Tuyu, han confiado las diligencias de su propaganda a la acreditada casa de los Sres, Parry y Cia, Calle San Martin numero 112, en Buenos Aires.

Asi lo han comprendido tambien los inteligentes industriales que acaban de introducir en el mercado las carnes conservadas de Tuyu, que en clase y condicion pueden competir con ventaja con las conservas americanas a europeas y las venceran en muy poco tiempo.

Es cuestion de precio.

Segun los datos que hemos obtenido se utilizaran segun el sistema McColl y Cia, unicamente la mejor parte del animal.—*La Exposicion de Buenos Aires*, Abril, 1881.

AUCTION

Within reach of all
2½ Leagues
OF
THE BEST CAMPS
IN
ENTRE RIOS
IN FRACTIONS OF
100 squares of 150 varas
Suitable for
Small Estancias or first class Chacras
ON JULY 10th
At 2 p.m.

I shall auction, by order of the proprietor, this splendid camp, situated in the Department of Villaguay, on the borders of the Department of Uruguay, 14 leagues from the capital of the Province and 5 or 6 from the town of Villaguay. It is surrounded by important establishments such as those of Don Aurelio Jorge, D Eduardo Almagro, D Teofile de Urquiza and the heirs of Benitez. The pasture is of the first quality suitable alike for sheep and cattle or for agriculture, the greater part being black vegetable earth, 50-60 centimetres in depth.

Persons interested in seeing the land can take the bus which leaves Uruguay for Villaguay on Mondays and Thursdays, and will leave them at the estancia of Don Teofilo de Urquiza, where they will find a person to shew them the land.

Advantageous conditions of sale

The sale will commence at the upset price of $f4 or $100 m/c per square of 150 varas, payable as follows—¼th part on signing the deeds, and the remainder in instalments with interest at 1 o/o monthly at 1, 2 and 3 years.

A better opportunity cannot be offered to acquire a good piece of land. In this Province $200 per annum is paid per square of land for agriculture and we offer to sell the property for the half of what is paid here for rent, bearing in mind that this land is admirably situated for agriculture on a large scale not only by the fertility of the soil but also for the facility of river transport. The title deeds, which are in the best order, will be delivered GRATIS to the buyers.

The auction will take place in my office, San Martin 90, on the day and date named. For more particulars apply at my office.

Note—Our object in offering these lands on such convenient terms is to attract a population of agriculturists and labourers to these very fertile and productive lands.

25TH OF MAY

The glorious sun of the 25th of May never shone with more effulgent prosperity on the Argentine Republic than at present, and in saluting this august national commemoration, we greet the anniversary of the struggle which liberated a continent and evoked characters to cope with the titanic effort: San Martin, Belgrano, Rivadavia and their companions, when treading the snows of the Andes or the sands of the distant deserts, in their wildest fancies, in their bright Southern imaginations, never augured such a future and such a prosperity to the nation of their efforts as that which now dawns upon this young and vigorous country.

Heroism is the patrimony of the past; like the Greeks the Argentine people have their Iliad: the Gods on Olympus are the bronze statues in our plazas, but we must read the country now by the future and the present. From the past we reap little knowledge: it is a heroic and dismal picture. Foreign wars and endemic anarchy, permanent rebellion and systematic hostility; nay, the gifts of all the Furies were freely scattered on these immense plains, only to paint in bolder colors and draw a greater contrast as the sun of prosperity, union, peace and aggrandizement salutes the new infant era on this 25th of May.

No human foresight could have measured on the 25th of May last year the changes that destiny has effected since then. Torn by political dissension, harassed by a presaged civil war, engulfed to the eyes in elements of discord, had even a prophetess risen to tell us of the future, incredulity, and the conscience of disaster would have greeted every word. Revolution, in its ugliest shape, cloaked in legal garments, threatened to stalk over the Republic, whilst fire-brand proclamations, closely accompanied by deeds of violence, ushered the dread of the morrow to every citizen's door. Times have changed and men have changed, the decaying elements have fallen off, and the phantasma of the moment has become the phantasma of the past.

Destiny took the nation in her hand and guided it safely through all the surrounding shoals; the misfortunes that hung so heavily over the horizon were only the 'pampero' clouds that temporarily concealed the dazzling brightness of the firmament. An unlooked for prosperity has been the unexpected epilogue of a history fraught with all the seeds of dissolution, and the Republic has proved another paradox.

In no former period of our history of vicissitudes has the country felt so well at ease, so prosperous and so confident as at present. For the first time the nation really lives, having emerged from the leading strings of individuals. For the first time does it feel that keen enjoyment of vitality the individual can remark as he gallops in the morning over the Pampa, imbibing life in every zephyr, and so characteristic of this country. every yard of rail laid down in the Interior; territory is expanding with the daily promenades of the troops through Patagonia; the revenue is hourly increasing, and the Government is taxed to its utmost to meet the never-ceasing demands for land and concessions to found colonies, start railways, or dredge unknown harbours. Whilst we are writing the Villarino leaves full for the South, and new men, with new estancias, are springing from the ground like the myrmidons of yore.

It is scarcely credible, but everything in this country, whether good or bad, grows and develops with an amazing rapidity unknown in any other part of the world, and none can predict what the Argentine Republic will be three years hence.

Whilst we salute Argentines, all our wishes and hopes converge in the belief that the future 25th of May will greet the nation as far ahead of this day as the present moment distances and eclipses the retrospect of the past anniversary.

ABOLITION OF FORCED CURRENCY.

THE PRESIDENT'S MESSAGE

Finance Office.
B. Aires, May 23d 1881
To the Honble Congress.

The embarrassments through which the National Treasury has passed, and which were increased by the unfortunate political events of last year, have prevented the Government from fulfilling its obligations as laid down in Art. 10 of the Act of 25th September 1876, providing that it was to hand the twelfth part of the Customs receipts to the Provincial Bank, in payment of its debt to it.

I consider that this abnormal state of things must not be tolerated one moment longer. The Argentine Nation being now definitely constituted and consolidated, the Government's first duty is to reorganise the administration, which cannot be done without the strict fulfilment of all those obligations on which are based the good faith of the country.

The Act of 1876, passed under the pressure of a prolonged crisis all over the country, was accompanied by those precautions which the difficulties of the moment imposed on the most generous patriotism. The free action of the Nation was restricted, and 'forced currency' became a supreme law for the whole country. To recover freedom of action, without injury to the creditor who lent us such powerful aid in the moment of difficulty, has preoccupied me constantly, and I trust that the Bill which I have the honour to submit to your consideration will achieve both objects.

The Executive of the Province and the Bank Board have already approved of it, and the Provincial Government has to-day submitted the proposed bases to its Legislature, for approval, and, should you approve of it, I have no doubt the Legislature will do likewise; and thus, while we fulfill our obligations in justice and equity, we abolish the restrictions which the Act of 1876 imposed on one of the highest prerogatives of the Nation.

On the other hand, the new state of things created by this Bill will be less onerous for the National Treasury than the present, while contributing to strengthen the position of the great Bank of the Province of Buenos Ayres.

The Nation, under the Act of 1876, having guaranteed all the metallic notes, I deemed it right to embody in this Bill the obligation (which the Bank has accepted) that it shall withdraw or convert this emission in the shortest time possible, thus fulfilling what the National Government undertook to do. Its own interest will force the Bank to hasten this operation, as, only when it is completed, in accordance with the wish of the whole country, will the greater part of the Bonds with which all the debt is to be cancelled be handed to it.

Once this economic evolution is effected—with advantage to the province, convenience for the Nation and benefit for the whole country—you will then be able to give prior attention to bestowing on the nation effective monetary unity, which will open the way for the disappearance of the monetary chaos in which the whole Republic is now involved, while expressing duly the sovereignty of the nation as regards international exchange.

Successively, and at the proper moments, I shall have the honour to lay before you such Bills as, in my judgment, will lead to those results so necessary for our political and social progress.

I, therefore, beg of your honourable houses to sanction the Bill herewith, devoting to it the studious consideration it demands, and at the same time with the promptitude required to fulfill the universal desire to meet a great want, in the interests of the nation, of Commerce, and even of the daily wage of the humblest workman.

God guard you

JULIO A. ROCA.
Juan J Romero.

RIO CUARTO.

'The plains of Rio Cuarto are the finest cattle-grazing lands of the whole Republic.' So says General Roca, and he knows as much of the pastoral capabilities of the Republic as any man in it.

The great landowners of Rio Cuarto, several of whom own from fifty to one hundred leagues each, do not probably know so much as the General does of the rest of the Republic, but they know the capabilities of their own land and the large profits their herds yield them. Every dollar they can lay their hands on they are investing in lands and cattle, chiefly, so far, in lands, for cattle are scarce and prices high; while lands, though rising rapidly in value, are yet cheap, and the investment is a paying one, even though they lie for a time unstocked.

To one accustomed to the fine pastures of Buenos Ayres, to the rolling 'cuchillas' of the Banda Oriental, these interminable tracts of waving grass do not appear attractive. This grass is strong and coarse; no amount of 'eating down' will refine it, but where it grows luxuriantly, finer grasses spring up under its favouring shelter—'gramilla' and 'cola de zorra.' The native has had a most pernicious habit of burning this luxuriant pasture every Autumn, in order that the tender shoots of the new growth may supply the want of finer grass, never thinking that he thus destroyed the seeds of the very grass he wanted; but he is learning better; this year the 'quemazones' have been few and far between: everywhere is seen a thick undergrowth of more fattening pasture, and the prospects for next year's 'faena' are very promising.

Not that estancieros did badly last season, though it was preceded by a year of drought; large troops of 'novillos' were sold for San Nicolas at $120, and last Winter the 'alfalfa' farmers, who bought up their 'novillos' and fattened them for the market, had almost a monopoly of the beef supply of Rosario and Cordoba.

Indians have been the bugbear which has, until the last few years, prevented any great extension of cattlefarming in this district; that fear is now removed, and constant purchases of cattle from the north, together with the natural increase of the native herds, are steadily increasing the area of 'occupied estancias', and filling those long deserted wastes with lite.

The system of farming has hitherto been most primitive; the estanciero trusted entirely to streams and lakes for his water, and suffered his cattle to roam at will; boundaries were ill-defined or not defined at all. A common practice was for a man to pay a trifling rent for permission to put up a rancho somewhere, then he bought cattle and sheep and enjoyed the rights of pasturage at will. This is altering rapidly: The Topographical Department is hard at work defining estancias; landowners, becoming awake to the value of their lands, are discovering that the right of pasturage belongs to them; those who have no constant streams on their lands are taking to sinking wells; the advantages of fencing are coming to be appreciated; every spare wagon on the Andine Line that can be found at Mercedes brings down a load of posts from San Luis; gigantic projects are mooted for putting up some three or four hundred leagues of fencing by contract.

The coarse grass which is the prevailing feature of the pastures of Rio Cuarto produces heavy hides and good beef, but does not fatten rapidly; it has, however, one most useful faculty peculiarly its own: its long roots strike deep into the soil, drawing up moisture by capillary attraction: it is thus enabled to resist the most prolonged drought, of which last year gave a notable instance. Men galloped over the beds of 'lagunas' never before known to be dry, but only to emerge upon the same plain of waving grass as in normal years. Lands burnt black in the Autumn by 'quemazones' were covered with pasture in the Spring, although not one drop of rain fell from April to November.

In normal years rain falls every week in the summer time, filling up the 'lagunas' and bringing into existence ponds of water in every hollow; but it never rains in Winter. Then the ponds dry up and the 'lagunas' shrink within their bounds; then on the wild plains, where no stream flows, there is thirst; thirst which, if not quenched, means death. But below there is water in abundance, needing only the aid of the well-sinker and the 'noria' to meet the necessities of countless thousands of animals; water, flowing from innumerable springs whose source is the distant, snow-capped Sierra.

In Buenos Ayres estancieros put off the drawing of water in a dry season till the need is absolute, for the cold water brought up by the 'noria', though it saves life, destroys the condition of the herds; it is not so in Rio Cuarto. The well-water in the dry Winter season is warmer than the surface water, and cattle fatten more rapidly when they drink from wells than when they drink from ice-cold streams or frozen 'lagunas.'

These facts are only now becoming known or understood; when the experience of a few becomes the knowledge of all, then all will say with General Roca:—'The plains of Rio Cuarto are the finest cattle-grazing lands of the whole Republic.'

EDITOR'S TABLE.

We salute our Argentine friends on the glorious Anniversary of their Independence and wish them and their splendid country every prosperity. Never have good wishes been so likely to be fulfilled as now, for never, since the key-note of Independence was struck in Tucuman, has the Argentine nation had such a dazling prospect of Peace and Prosperity before it. That this Peace may never be broken, and this Prosperity grow with its growth and strengthen with its strength, is the sincere wish of all the British residents in this favored land, and of all other foreigners also. 'Viva la Republica!'

There is such a prodigious lot of fun on hands for to-day that it quite bewilders one to think of it: the fetes in town, the races at Lujan, Athletic Sports at Palermo, the English children's pic-nic at the same place, the opera at night—in fact, Sir Boyle Roach's ubiquitous bird could not get through the whole of them, and, if he were wise, would not, even if he could. The full programme of the Fetes will be found in another column. The train for the Lujan Races leaves the Parque at 9 o'clock; that for the Athletic Sports starts from the Central at 10.50, and the 'little people' are to meet at their school-room at 9.30. Good-bye to everybody concerned till Saturday morning next.

Dr. Romero's Forced Currency Abolition Bill was the sole topic yesterday in monetary and commercial circles. The general impression about it is not unfavourable, but that it is capable of considerable amendment, which it will doubtless receive in Congress, where the debate on it ought to be interesting, as it offers a good field for sound financiers. The best comment on the Bill was the cadaverous countenances of the gold Bulls, who have an instinctive feeling that their Last Day is at hand, and a bottomless tub under their 'poor feet.' We're very sorry for them, but we can't cry.

Things are a little quieter at Montevideo, but it is only the calm that precedes the storm which Latorre will direct, and which will increase the passenger traffic with this city to a degree that will put the 'no steamer to-night' people in good spirits. We shudder to contemplate the effect of a coaple of 'no steamer' nights when the row begins properly. Any money for a 'cooter!' will be the cry then. The Reds have administered a sound drubbing to another respectable citizen (so much for carrying an umbrella in troubled times.) Santos has resumed his post, but has been granted leave of absence, to recruit his health. President Vidal had asked the Chambers' permission to prohibit public meetings and manifestations, but the Deputies were afraid to meet. Messrs Dan. Muñoz and Bustos met President Vidal in the street and threatened him so violently that he had to take refuge in the nearest Legation. The 'mazhorca' have killed a couple more people, to keep their hands in. Dr. Fein's house was broken into and sacked from top to bottom, but, fortunately, he took the precaution not to be 'at home.' The whole population is in a state of panic, and the Foreign Ministers again threaten to land Marines at once. Baron Cotegipe is coming from Rio on a Special Mission. Poor Montevideo.

All patriotic citizens are called on by the Lord Mayor to hang out flags by day and illuminate the fronts of their houses to-night. We hope it will be generally done. There has never been here what we call in England a 'general illumination,' when the people spontaneously place candles in all the windows of their houses, and with a very pretty effect. Here, everything is left to the authorities, with the exception of some clubs and wealthy families who can afford flaring gas jets. We should like to see a 'general' illumination on every Independence Day, instead of concentrating all the light in Plaza Victoria.

Don Manuel Perez del Cerro has been named Master of Ceremonies for the fetes to-day. Pre-eminently the right man in the right place.

We beg to remind our English readers that Divine Service will be celebrated in St. John's Anglican Church to-morrow, it being Ascension Day,

The Pascal has brought one day's later news from Europe. The Empress of Russia is so frightened at the threats of the Nihilists that she is using every effort to induce the Czar to grant a Constitution, but he refuses, being greatly angered at the last Nihilist proclamation. His Majesty also swears that he will hang his uncle, the Grand Duke, if he is convicted of being a Nihilist, as he probably will be. The hangman received 100 blows of the knout because the rope broke when Michailoff was being executed. Lord Cairns is the favourite candidate for the leadership of the Conservative party. The noble Earl, who is an Irishman, began life in pretty much the same manner as Lord Beaconsfield—in the offiee of a Belfast attorney, on £60 a year. There have only been 35 arrests in all made under the Coercion Act. A renewal of diplomatic relations between Great Britain and the Holy See is now being negotiated.

The R.M.S. Trent arrived at Montevideo yesterday, and will probably be here this morning. She brings 14 first class passengers.

The Anglo-Argentine Tramway Company now charges double fare after 11 o'clock at night for the Opera car to Flores.

The Legislature of Entre Rios has just dealt a commendable blow at the 'empleomania' which is the bane of this country. It has reduced the salary of all its civil servants by 20 per cent, and 9 months have elapsed since these same civil servants have received a copper of their due. If this is not enough to make them uncivil and, at the same time, force them to seek some other mode of living, we know not what can do it.

They are growing sugar and making maize whiskey now at the Resistencia Colony. All that is wanting is the hot water, as we suppose they have lots of lemons.

The fireworks in the Plaza commence to-night at 7½ p.m, to allow the fashionable part of the community to see them and also be in good time for the performances at the Colon and other theatres.

Don Felix Frias started yesterday for Europe in the Gironde; he goes to the South of France for his health which we trust will soon be restored. Don Juan C Varela and family and Dr Cane, Minister to Colombia, sailed in this steamer.

The stock of the well-known English almacen at 19 Calle Reconquista, next the Colon Theatre, will be sold by auction on Friday. A capital chance for those in the trade.

The gold market opened weak and excited; the cash sales were large, and most of the transactions were at 28.35; the last sale on the board, however, was at 28.40, which gives the day's quotation. The sales on time were very heavy, and all point to a declining market.

It is really amusing to hear the various opinions offered on Dr Romero's project. Some believe that as there is no obligation on the part of the Bank to withdraw its specie notes, it is calculated rather to put up gold than anything else, whilst others see in the absence of any conditions put upon the Bank the real ability of the project. Gold for the end of the month may be whatever the brokers put it, but the price for June and succeeding months is utterly beyond the power of the brokers, and many who study the market closely think that gold at the end of June will be dear at 27 m/c.

Gold began cash at 28.45, sold down to 28.35, and closed weak at 28.40, the amount sold cash 136,190 pats, which shows a brisk business enough for cash. The sales on time were tremendous; the whole market seems to be selling out. For end of month close on 800,000 pats. sold, opening at 28.45, dropping to 28.35 and closing at 28.40. For June, 550,000 pats., opening at 28.15, dropping to 28.05 and closing at 28.10. For July, 115,000 pats., at 27.95. 'En fin', along the whole line there is a downward move.

Cedulas very little done; prices at 97.

National Bank Shares heavy, but maintained prices cash at 93½, and for end of the month at 93¾. For June market firmer than for cash at 94½.

Empresito Popular at par, and Provincial Bonos at 4 prémium.

Nothing done in National Bonds, but several parties offering to buy, no sellers.

Exchange looks very decidedly up, and some drawers gave way this morning and drew on France at 5.20 and on London at 49. As we anticipated, exchange is now much more freely offered not only by the houses but by the banks. Some of the large houses are fully aware of the splendid business they can do by drawing now, selling the gold cash and buying the gold for July and August, and we heard of some transactions of this kind to-day, but the drawers missed their spring and held back too long, and a large exchange operation of this kind say for two or three millions of francs is at present almost impossible, as except the banks there are no large takers in the market.

We give in another column President Roca's message, accompanying Dr Romero's project; its great simplicity and straightforwardness commend it to public favor.

Mr Lehman, of the Esperanza colony, was welcomed on 'Change; he reports everything thriving in the colonies and the whole country being ploughed up for the new crop. He starts this season with three new colonies; no wonder that gold falls. Mr Olmos, one of the richest property holders of Rio Cuarto, has also arrived, he says that the whole country up there is being settled on by new comers, and new estancias springing up on all sides.

The clearance of the Gironde was the business of the day, she took a very heavy mail and crowd of passengers. Madame G Torres and daughter left in her for Europe.

Another great business to-day was the clearance of the Villarino; it is perfectly incredible how our business relations with Bahia Blanca and Patagones have increased; formerly nobody ever heard about the mail closing for Bahia Blanca, but to-day things are so changed that the mails for the far South almost rival the mails for Europe; at the rate the South is growing we shall soon have a steamer every week for Patagones.

The Provincial Bank discounted yesterday eleven millions; no fear of money being tight with such liberal discounts, and we hear there were very few applications for trade pagares.

In the share market we note more firmness and new buyers entering for June: one party bought 700 shares for June at 3 o'clock at 94½, buyers, for end of July offering, but as the dividend will be payable on August 1st, holders ask higher rates.

Cedulas ruled weak, and sellers for end of June offering at 96¾. The bears are bringing all their power to work on the stock, but there is no other stock in the market that pays the same interest as Cedulas.

Exchange as we presumed has closed for the Gironde's mails not only firm but with bills over, there is really no mistaking the exchange market, and it was whispered in the liquidation room that on Friday the National Government will probably draw.

The sale of two leagues of outside lands near Gainza is reported but on reserved terms.

Shipbrokers report more doing in bales for the last week, and steamers find plenty of cargo, but the Havre telegrams prove a damper on business.

It is not certain if the Trent comes up to-night; if she sails, she will bring the Thales's mails, to 26th April.

The Thales arrived last night in Montevideo with dates to 26th from Liverpool, she calls here on 26th to land passengers, and proceeds same day to Rosario to load for Antwerp and Liverpool.

Some exchange on France passed to-day at 5.20.

The civic and church holidays will stop business until Friday, and many parties avail of the two holidays coming together to take a run out to the camp.

Mr Thomas Dodds was welcomed on 'Change on his return from the Venado Tuerto, where he has measured all the lands sold by Mr. S. Casey. He reports the camps splendid. Chapeurouge is poblared at the Hinojo, which is situated in the lot reserved for the town, with 500 head of cattle.

Our Boca correspondent gives the following advices:—

The Nova-Scotian brigantine G. S. Berry, Captain Howard, left our port yesterday with mules and sheep en route for Demerara. Captain Howard carries his family along with him, and all his Boca friends wish him a pleasant voyage and a quick return. It may be remembered that a few months ago a mutiny broke out on board, and he, Captain Howard, was on the point of being murdered in cold blood on the high seas, had it not been for the gallant conduct of his eldest daughter, Miss Lia Howard, who with revolver in hand faced the mutineers, and cowed them into submission; not indeed until her poor father had received fourteen wounds.

The latest advices from Rio Janeiro are as follows:—

"Exchange—Since our last report of 7th instant, our market has been very firm, and rates have advanced considerably.

"On 9th inst. Banks opened rates at 20⅜, finding, however, no takers, and some few transactions in Commercial bills were effected at 21d and 21 1/16. On 10th inst. rates were again firmer and Banks offered to draw privately at 20⅞. On the 11th the rate became general at 20⅞ for Bank bills, and on the 12th it was advanced to 21d. Yesterday (13th) transactions in Bank paper were reported at 21⅛ and ¼, the latter being repassed bills, and Commercial bills were difficult to negotiate under 21⅜.

"To-day (14th) our market closes very firm.

"On Paris, rates have fluctuated between 458 and 461 reis per franc for Bank, and 442 reis Commercial bills.

"Sovereigns—
2,000 at 11$160
4,300 at 11$420

Advices from San Nicolas give the following maritime news which shows what is doing in that port:—

Span. brigantine Felicia loading tasajo for Habana.

Do do Dorotea loading tasajo for Rio de Janeiro.

Ital. brigantine Margaret discharging salt and chartered to load tallow in Paysandu.

Germ. brigantine Lina loading tallow for Havre.

Do do Elise loading maize for Rio Janeiro.

Do do Anton loading bran for Pernambuco.

Do do Sophie Luise loading 9,500 salted cow hides for Falmouth.

Italian brigantine San Pedro loading 1,100 bales for Falmouth f.o.

Swedish barque Skandia loading 700 pipes tallow for Stockholm.

Ital. barque Teresa Molfino expected to load 200 pipes tallow and 12,000 dry cow hides for Genoa.

Brit. str. Euclid, expected on 20th, to load 600 bales wool, 5,000 cow hides and 3,000 salted potro hides for Antwerp and Liverpool.

Everyday 20 or 30 sailing vessels and steamers are receiving and discharging merchandise. It can be seen the great development of this important port.

The following are the latest advices from the Paris market:—

"Negociations appear to be going on between the Government and the great railway companies for a reduction of the rates for passengers and parcels, the State abandoning the second 10 per cent railway duty imposed after the war.

"Dividends of several railway companies are announced. The Lyons will pay f 70, or 14 per cent, for 1880, after 11 per cent for 1879; the Southern f.40, and the Eastern f.33 each per share of f.500. The dividends of these last companies are the same as for the previous year, although the profits were larger, as both are under the necessity of having recourse to the Government for guaranteed interest on the capital of the new network, and cannot increase their dividends.

"The Western Company has held its meeting and fixed its dividend at the usual f.35, or 7 per cent, this company being in the same situation with regard to the Government guarantee as the Orleans and others. The Western requires for 1880 over 14 millions from the State for interest on the capital of its new system, but that sum is 3½ millions less than taken for 1879.

"The receipts of the Suez Canal in April amounted to f.4,690,000 against f.4,116,507 in the same month of 1880. The total for the first three months was f.12,497,040 in 1881, f.11,186,440 in 1880, and f.8,041,946 in 1879.

"The Credit Foncier Company has held its meeting and voted a dividend of f.45 50c, or 17 per cent for 1880, 2 per cent more than for 1879, also approved of a proposal of the Board to increase the capital from 130 millions to 200 millions of francs.

"The Societe des Depots et Comptes Courants pays for 1889 f.16, or 12·80 per cent, against 12 per cent for 1879.

"The new issues in France in the first quarter of the year amounted to a nominal sum of 1,379 millions, and an effective capital of 1,228 millions.

"A bogus undertaking has come to grief before being fairly launched. The City of Paris recently granted to a speculator the privilege of selling milk from the cow in eight public squares or gardens in Paris. The favour was evidently not considered as of great value, for the rent to be paid was only f.50 annually for each garden, or f16 a year for the whole, and the city reserved the right to revoke the concession at any moment, without compensation. With this small privilege the holders boldly issued the prospectus of a company with a capital of f.1,200,000, and the circular, while trumpeting the monopoly granted by the city, suppressed the clause relative to the right of the city to terminate the concession. The Municipal Council, seeing the abuse that was being made of the grant, has now cancelled it."

MALTINE.

(Extract of Malted Barley, Wheat and Oats.)

The Original and only Preparation Composed of these three Cereals

MALTINE is a highly concentrated extract of malted Barley, malted Wheat, and malted Oats, containing, undiminished and unimpaired, all the nutritious principles that can be extracted from these cereals. By the most carefully conducted scientific process we are enabled to offer a perfect article, possessing five to ten times the beneficial and nutritive merit of any alcoholic or fermented Extract of Malt.

"WHEAT and OATS are especially rich in muscular and fat-producing elements."
—Liebig.

MALTINE will increase both weight and flesh in most persons of thin habit.
MALTINE is particularly recommended for delicate Females and for weak and debilitated Children and Infants.
For Deficient Lactation, and for Mothers whilst Nursing, MALTINE is especially recommended.
MALTINE is the most important combination for use in Constipation.
MALTINE is entirely free from all products of Fermentation, such as Alcohol and Carbonic Acid Gas.
MALTINE is very palatable and pleasant, and will be readily taken by the youngest child.

THE COMPOUNDS OF MALTINE

Can undoubtedly be used with greater success than any other remedy now known in cases of General and Nervous Debility, Indigestion, Imperfect Nutrition, and Deficient Lactation; Cholera Infantum and Wasting Diseases of Children and Adults; Convalescence from Fevers, and whenever it is necessary to increase the vital forces and build up the system.

For Consumption and Wasting Diseases.

MALTINE with Cod Liver Oil—The most perfect emulsion and most agreeable and effective mode of administering this nauseous but valuable Oil yet discovered.
MALTINE with Hypophosphites—This preparation is specially indicated in Consumption, Rickets, and deficient Ossification.
MALTO-YERBINE.—A most palatable and efficacious remedy and substitute for Cod Liver Oil in the treatment of Consumption and Wasting Diseases; also the most perfect remedy yet produced in Chronic Pulmonary Affections, Coughs and Colds.

CAUTION—Examine each Bottle and see that the capsule is marked The Maltine Manufacturing Co. L.D. Without it you have been imposed upon by a worthless imitation.

STATE OF IRELAND.

(*Times' Special Correspondent*)

The O'Conor Don lives a mile from Castlereagh. Near his old tree-embowered home he has just built in the more open portion of the park a handsome mansion. Commodious stabling and farm buildings evidence sporting and farming tastes. In the park are numbers of capital shorthorns and useful Down sheep, which for three years have, however, suffered from liver rot, caused by flukes. The O'Conor Don considers that the Irish climate has of late undergone untoward change; the summers are wetter, with less sunshine; the wiuters more severe. Skating, hitherto unknown in the West, has become a familiar pastime. More shelter and greater stores of dry food he regards essential for the successful wintering of all descriptions of live stock. In Ireland, as in England, several dry summers are sadly wanted to insure, not only remunerative crops, but the better health and greater profit of the animals of the farm.

The O'Conor Don has 11,500 acres comprising small mixed farms in Sligo and larger grazing farms in Roscommon. Of 500 tenants only 23 pay over £20 of annual rent; more than half are charged less than £10; on one townland all are under £30; on another only three out of 26 reach £20. For 40 years no accession has been made to the rents, which range from 25 p. cent under to as much over Griffith's valuation No case has ever been taken into the Land Courts. The tenants have perfect security. Since the great famine there have been no changes among them, and little opportunity for the desirable rolling together of the smaller holdings. Reserving a veto on the solvency and respectability of the new comer, no other restriction is put upon the disposal of the tenant-right, which even in these bad times brings a high figure, often reaching eight or ten years' rental. A holding of three acres reclaimed by the tenant and rented at 21s a year was recently bought for £60 Rents are moderate; 25 per cent deduction was nevertheless offered to all holders under £20; but payments come in very tardily. Lord Dillon having given 30 per cent, this allowance is expected on all neighbouring properties, whether high or low rented. Several tenants have indulgently been allowed to fall three or four years behind, and some of those who can pay will not. Such old arrears can never be recovered; but since the passing of the Protection of Life and Property Act and the recent arrests, current rents in the West and South have been rather better paid, and tenants of their own accord drop in and show some legitimate anxiety to get out of debt.

The grass farms of Roscommon range from 50 to 500 acres. During the best of the season they will carry one beast per statute acre; they are let at 25s. to 40s., and are generally taken annually from May Day. They are independent o tenant-right. A single grazier sometimes rents a dozen farms. There are no buildings, except a herd's miserable cabin, and occasionally the hovel of a squatter. The fields are divided by clay banks or stone walls, are without shelter either from wild winter storms or scorching summer heat, but intelligent graziers are discovering the want of shelter, willingly give more for farms where there are a few trees, and would cheerfully join with the landlord in planting belts and clumps. Rents and prospectus of grant farms are not, however, what they have been; even substantial men have demurred to meet rents. Many who have rendered themselves obnoxious to the Land League have had their gates and fences broken down, their cattle of different sorts driven together, and sometimes sent in the night several miles along the roads, while their herds are terrorized into resigning office. This programme is obviously devised to deter graziers taking those grass farms, and thus to coerce landlords to divide them among small holders. Any considerable breaking up of grass land would, however, be a dubious and temporary benefit either to occupier or owner. With an accumulated store of plant food, those old pastures, without trouble or expense for some years, would produce full crops of oats and roots. But the damp Western climate is more suitable for pasture than for tillage. Cultivation of the type generally met with would steadily depreciate the value of the farms. They would produce less weight of food than they now do, and soon retrograde in value, while the reduced rents would be more troublesome to collect. Numerous illustrations of such retrogression are met with. A good one occurs in the townland of Ballinbella, in the parish of Ballindine, where, at their own request and on their own terms, permission was some years ago granted to the tenants to plough up some good pasture. The land has gradually deteriorated. The tenants declare that the old rents cannot be made, and allowances have to be given to the extent of 25 per cent. It is often wise to leave well alone.

MAY FEASTS

El Programa de las Fiestas Mayas.

Parece que las fiestas que van a tener lugar con motivo del aniversario glorioso del 25 de Mayo van a ser magníficas a juzgar por los preparatorios que se hacen.

El programa de ellas aunque no pomposo sera sin embargo bastante a satisfacer a la poblacion.

Habra gran iluminacion en la Plaza de la Victoria como hasta ahora no la hemos presenciado, pues ademas de las luces que por lo general se han encendido, se ha aumentado un numero considerable de ellos para hacer mas precioso el efecto.

La torre del Cabildo y el frente de la Catedral se iluminaran tambien profusamente, pero las luces en estos dos puntos no permaneceran encendidas sino de 7 a 9 de la noche, pues no hay objeto en gastar un exceso de luz si se tiene en cuenta que despues de quemados los fuegos es poca la concurrencia que permanece en la plaza

En los dias 24 y 25 los muchisimos globos que se elevaran llevan las siguientes inscripciones—Juan Dias de Solis, Juan de Garay, Liniers, Moreno, San Martin, Brown y Urquiza, como conmemoracion del descubrimiento del Rio de la Plata, fundacion de Buenos Aires, defensa de los derechos patrias, idea de la libertad y emancipacion, ejecucion del pensamiento, genio militar naval, caida de la tirania. Ademas llevaran ellos tambien los nombres de las catorce Provincias de la Republica.

En los dias 24 y 25 presenciaran los fuegos de artificio desde los balcones de la Municipalidad y galerias del Cabildo, las familias especialmente invitadas por el Presidente de la Municipalidad con ese objeto.

A los salones municipales y para el acto del desfile de las fuerzas no son invitadas las señoras por la estrechez del local y para impedir las molestias naturales que ellos esperimentan en las grandes concurrencias, cuando el local de reunion es inadecuado a contenerlas.

Pero este inconveniente si asi puede llamarse quedara salvado.

A peticion de distinguidas personas de la calle Florida, el Presidente de la Municipalidad se ha dirijido por la nota que en otro lugar insertamos, al Señor Presidente de la Republica, solicitando que despues de la revista las tropas desfilen por la calle Florida hasta la Plaza del Gen. San Martin y el ha recibido en contestacion el asentimiento a su pedido.

Por lo tanto, la concurrencia en las veredas balcones, ventanas y azoteas de dicha calle sera numerosa, y se habra conseguido que un mayor numero de personas presencia el desfile lo que habria sido imposible a invitar uno limitado de senoras a los balcoues de la casa municipal.

Durante las dos noches ejecutaran en la Plaza de la Victoria piezas escojidas las bandas militares de la guarnicion que han sido solicitadas al efecto.

En cuanto a los fuegos artificiales que seran preparados por los mejores pirotecnicos de la ciudad, se encenderan a las 7½ en punto de la noche, de modo que las personas que concurren a las funciones teatrales, tengan descansadamente tiempo para presenciarlos sin retardar la hora habitual de los espectaculos.

El Presidente de la Municipalidad de acuerdo con el Gefe de Policia ha resuelto que en los funciones de noche del Teatro Colon, los tramways que pasan por frente al edificio no puedan pararse a tomar pasajeros al terminar las funciones. Seguiran de largo sin detenerse pudiendo estacionarse para recibirlos en la Plaza de la Victoria donde hay espacio o sino en la misma calle reconquista.

Los carruages deberan estacionarse tambien al Norte del teatro y al terminar la funcion pasar por frente a el sin pararse, solo en el caso de que estando la familia pronta a subir y llamado por el numero correspondiente, se encuentre en la fila que va rodando.

No sucediendo esto debe seguir por la calle Rivadavia hasta San Martin, luego por esta y despues por la de Piedad dando asi la vuelta de las cuatro cuadras.

Esta resolucion se ha tomado con el objeto de que las personas que van en carruaje no esperan media hora, tan solo porque otros coches se estacionan al frente del teatro y las personas que han ido en ellos tardan en salir.

THE STANDARD—Printed and published every morning at the *Standard* Printing Office, 164 Piedad.

Mrs S. A. Allen's World's Hair Restorre

The Genuine only in Pink Paper Wrappers.

It cannot fail to Restore Grey Hair to its youthful Colour, Gloss and Beauty.

IT IS NOT A DYE

It ever proves itself the natural strengthener of the Human Hair.

THERE are two special qualities which determine and fix the superiority and excellence of Mrs S. A. Allen's World's Hair Restorer :—First—its prompt quick action, and the new growth, life, and vigour that it is sure to give to the hair, never failing by a few applications to Restore Grey or White Hair to its Youthful Colour, imparting to the hair a delightful aroma, fresh, delicate, and unchangeable in any climate. Second—its easy application without any previous preparation of the hair; without that sticky and disagreeable sulphur odour found and complained in other preparations. It never stains the skin or linen. It retrains the hair in any desired position, and is cooling and cleaning to the scalp.

Use no other Preparations with it, not even Oil or Pomade or Zylo-Balsamum

To Restore Grey Hair, Mrs. S. A. Allen's World's Hair Restorer is the best.

Because it is made from Choice Materials, and prepared with thu utmost Care and Skill.

Because over Forty Years the Favourite Preparation, enjoying by far the Largest Sale, it must be the Best.

Because it Does Not Dye the Hair, but Strengthens it. Grey Hairs soon Disappear.

Dr. J. COLLIS BROWNE'S
(Ex Army Medical Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.

CHLORODYNE the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis &c.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1866) that in nearly every case of Cholera in which Dr. J. Collin Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
